## VERNON COUNTY PRIVATE ONSITE WASTEWATER SYSTEM INSPECTION AND PUMPING REPORT

- Wisconsin Administrative Code, SPS 383, and Vernon County Ordinance, Sec. 70-111 & 70-112, requires that the owner of a private onsite wastewater treatment system shall be responsible for ensuring the proper operation and maintenance of the POWTS. The owner of such POWTS shall furnish the department with a signed copy of the inspection report within 30 days of each inspection, maintenance or servicing event.
- The maintenance program requires that ALL systems be inspected once every three years by a licensed master plumber, a certified POWTS inspector, a certified septage servicing operator or a registered POWTS maintainer. The program further requires that those systems with an accumulation of solids of 1/3 of the septic tank volume have both the septic tank and pump tanks pumped by a DNR certified septage servicing operator.
- A POWTS that is not maintained in accordance with s. SPS 383.52(2) shall be considered a human health hazard and will result in a citation.
